---

## EDUCATION

---

**University of Massachusetts Amherst** *Amherst, MA* | Expected May 2021

B.S in Computer Science & Economics

3.42 GPA | Dean's List: Fall 2017, Spring 2020

Activities: UMass For The Kids, Kappa Sigma Fraternity

Coursework: Programming Methodology, Algorithms, Database Management, Human-Computer Interaction, Intermediate Macroeconomics, Web Programming, Introduction to Data Science, Programming for Apple OS Apps

---

## WORK EXPERIENCE

---

**Research IT Office Assistant** | 5/2019 – 8/2019

Research IT Support Services – University of Massachusetts *Amherst, MA*

- Assisted in conversion of legacy data from Smart-Grant Research Grant Proposal System to Kuali Research Grant Proposal System
- Migrated over 5,000 research grant proposals and awards from old database platform to new database platform

**Technology Intern** | 7/2015 to 8/2015

Loomis, Sayles & Company *Boston, MA*

- Assisted with the redesign and revamp of the company's employee application repository.
  - Worked primarily with web design languages: HTML with CSS style sheets.
- 

## TECHNICAL SKILLS

---

### Object Oriented Programming

Experienced in Java, JavaScript/Typescript, familiar with Python

### Imperative, Low Level Programming

Experienced in C

### Web Design

Experienced in HTML, CSS

### Database Management

Experienced with SQL, familiar with NoSQL

### Data Visualization

Familiar with Tableau

### Version Control

Experienced with Git

---

## PROJECTS

---

### Shelf (2020)

Shelf is a website which allows a user to sign up and store books that they are currently reading, have read, or plan to read. They can search for books which are fetched from the Google Books API, which will return basic information about the book, such as title, author, and publisher, as well as more detailed information, such as cover art and Google Books rating. Users are able to add reviews and ratings to books. Users can share their "shelves" with other people when they add them as a friend, and they can comment on activity from members of their friends list, which show up in a feed. This was done with Daniel Coley and Josh Vasilevsky, my two other team members in COMPSCI 326 at UMass.

<https://github.com/joepasquale/326-final-sigma>

### React! (2020)

React! is a basic reaction game written in Python. When the player hits start, they will have two seconds to choose the color which appears on the screen. A correct choice results in +5 points. An incorrect choice results in a loss. A player wins the game at 25 points. When the player wins or loses, their score, time, and information are stored on a leaderboard in MSSQL.

<https://github.com/joepasquale/reaction-game-code-challenge>

## URecycle (2019)

Me and 7 other students developed an application using React-Native framework to incentivize and encourage recycling on UMass campus. It features a barcode scanner to scan recyclables and receive "points" for them, which can be redeemed for a variety of rewards. It also comes with an information page that helps users find what is recyclable and what is not.

---

## LEADERSHIP EXPERIENCE

---

### Grand Scribe | 12/2019 to Present

Kappa Sigma Fraternity – Gamma-Delta Chapter, *Amherst, MA*

- Managed day-to-day operations and assisted in making decisions for the well-being of the chapter
- Assisted in management of ~\$120,000 budget for chapter operations
- Maintained contact with various representatives in the national Kappa Sigma organization
- Documented and reported all community service dollars and hours, roster changes, meeting minutes, and other essential chapter metrics

### A Greater Cause Chair | 6/2019 to 12/2019

Kappa Sigma Fraternity – Gamma-Delta Chapter, *Amherst, MA*

- Managed a ~\$1500 budget and used said budget to plan events to raise money for local causes and national organizations
- Logged and reported all community service for the chapter using Google Docs Suite
- Maintained communication with various on-campus organizations to coordinate philanthropy efforts

### Champion Quest Chair | 1/2019 to 5/2019

Kappa Sigma Fraternity – Gamma-Delta Chapter, *Amherst, MA*

- Managed a ~\$1700 budget and used said budget to plan events to attract interest to our organization, as well as advertise
- Advertised/marketed Kappa Sigma by distributing physical materials on campus and boosting our presence on social media
- Engaged and communicated with hundreds of potential new members and helped decide which individuals to accept
- Maintained various records to track engagement

### Orientation Leader | 5/2018 to 1/2019

New Students Orientation – University of Massachusetts *Amherst, MA*

- Assisted introduce over 5,000 new students to UMass Amherst at their New Students Orientation session.
- Worked directly with the College of Information and Computer Sciences to help them introduce new students to the college, as well as its requirements and expectations.
